

EFFECTIVE

QUANTIFIABLE

RESULTS

Service Performance helps service departments promote their contributions and communicate their value, so they get more of what they want.

OPTIMIZE VALUE

delivering the desired

**Customer
Experience**

IMPROVE SERVICE

enhanced
**Accountability &
Communication**

LEVERAGE RESOURCES

through
**Productive Service
Engagements**

Consulting projects include service branding, communication programs, performance metrics, process mapping, business planning, and defining the customer experience, and voice of the customer research.

Service Performance's clients include Microsoft, Workday, Sony Pictures, NetApp, NVIDIA, Aetna, as well as with facility service suppliers. Our clients work in:

- Security & Safety
- Facilities Departments
- Data Center Operations
- Procurement

Chris Arlen, President
Service Performance

Chris Arlen founded Service Performance in 1996 to help management get more value from their services. Before consulting, Chris was on the supplier side in sales and marketing where he learned the intangible nature of service.

Chris holds a Master's degree from Antioch University Seattle and a Bachelor's degree from California State University, Sacramento.
